

# CONSCIOUS SEDATION

## OVERVIEW

This intensive one-day course is aimed at doctors, nurses and ODPs involved in the care of patients undergoing potentially painful, uncomfortable and frightening procedures. It focuses on both understanding sedation techniques and improving non-technical skills like effective communication and leadership. The setting is a simulated theatre using an advanced simulation manikin with realistic physical and physiological signs.

## OBJECTIVES

The course seeks to raise awareness of the potential 'pitfalls' in the peri-procedure care of these patients. By the end of the course participants will have a better understanding of sedation, patient safety, and how to recognise and deal with medical emergencies such as over-sedation, loss of airway, etc.

## WHO SHOULD ATTEND?

Doctors, nurses and ODPs involved in the care of patients undergoing procedures by sedation.

## HOW TO REGISTER

You can register online via the Chelsea and Westminster Hospital website; the course fee is £300 for Doctors, £200 for Nurses/ODPs. The venue for this course is the **Centre for Clinical Practice** (Lower Ground Floor, Lift Bank D). For queries please contact the Simulation team on (020 331)5 8632 or via the e-mail address below.
